Information on the Data

Premiums

Part B Premiums: Provided by Medicare.gov

Part D Premiums: (prescription drug coverage): is compiled from all participating health insurance providers within each state: Premiums, which include non-tobacco and tobacco are then averaged for the mean premium. For Medicare beneficiaries who may not be in great health, premiums may be higher.

Supplemental Plans: data is compiled from all participating health insurance providers within each state. Premiums are based on a Medigap Plan F policy by age and gender as well.

Please consult with a health coverage professional as rates are based on the specific states average.

Inflation Rates

All data is provided by the Medicare Board of Trustees (MBT). Inflation rates are using historic premiums since inception as well as projected rates of inflation set forth by the MBT.
